

WE WORK FOR ALBERTA KIDS

We work for Alberta kids, and we need your help.

Most of us have not had a wage increase in eight years.

Our average wage is just \$34,300 per year.
Educational Assistants make even less, \$26,400.

We keep kids safe, on track, and learning. We love what we do, but we are tired of working 2-3 jobs and relying on food banks to survive.

Increased workloads are burning out workers, recruitment and retention is a big problem and kids are paying the price.

Alberta has the lowest per-student education funding in Canada. Recent increases have not covered inflation and enrollment.

Please tell your MLA we need better education funding, better paid support staff, and better schools.
